Trades Related Experience

- Flooring Installation: Removed existing subflooring and VCT, prepped rooms to install new flooring. Used a roofing shovel, circular saw and hand tools to remove staples and tack strips. Carefully removed and preserved base moulding using hammer and cats paw. Measured, cut and installed new laminate flooring using a chop saw, jigsaw, table saw, knock block and hammer.
 - Set Fence Posts: Poured piers and set 4x4 post anchors to prepare for fence installation. Dug holes to correct depth using post-hole digger. Mixed concrete, poured it into the holes and inserted post anchors. Checked for plumb and level.
 - General Construction Laborer: Moved reclaimed bricks from one site to another. Built a pathway out of the bricks using pea gravel, sand, a rake, hammer and rubber mallet. Leveled and set pavers. Worked with crew to relocate raised flower beds that were already filled and planted. Used a cats paw, hammer and 4' level to ensure ground was level.
 - Built garden beds: measured and cut 2x12 lumber using a circular saw. Used cordless drill/ impact drivers to fasten lumber. Used speed square to ensure square.
 - Hung 4'x12' sheetrock on metal stud framing. Used cordless drill to fasten on layout per schedule.
 - Painted Building Exterior: Worked from extension ladder to prep home for respray. Masked hardware, window sills, door frames and moulding. Used airless sprayer to apply primer and 2 coats of paint. Backrolled as necessary. Cut in window trim by hand. Thorough clean up.
